Sir:

In response to the Requirement for Restriction dated September 10, 1999, kindly reconsider the requirement based on the following remarks.

## Remarks

The Applicants acknowledge the Requirement for Restriction and respectfully traverse.

A copy of this response is being provided to Examiner Schwartz, Biotechnology Practice Specialist, at his request, after having discussed the case with Gerard Weiser on November 2, 1999.

The Applicants respectfully submit that there should be no restriction at all in this case. All of the claims in the case are clearly related. The claims center around a Universal Vector ("UV") which can be used to transform plant chloroplasts to produce a variety of products in plants. The key concept is the integration into the plant chloroplast into a region that is conserved among a variety of plant species.
